MEMORANDUM FOR THE RECORD

SUBJECT: Operations Briefing 11 September 1975

25X1 Mr. Hughes of the HSC met with [redacted] and Gregg on 11 September 1975. All five Ops were covered, following an opening statement by Mr. Gregg as to philosophy of the Review Staff toward HSC investigation. Mr. Hughes appeared receptive. At the end of the meeting he said he would forward requests for specific documents. He added that what he had heard was consistent with stories from others involved in the operations, and that he would write up the operations. He indicated that since all stories had been consistent, HSC interest in the ops would die down. He was appreciative of the briefings and seemed to be a sharp and direct man, with a good deal of practical experience. (He is a practicing attorney.)
